PETITION

To the Honourable the Speaker and Members of the Legislative Assembly of New South Wales.

The Petition of Citizens of New South Wales brings to the attention of the House **that creating an artificial reef by having an ex-Navy ship scuttled off the Sydney coastline will provide valuable diving opportunities to SCUBA divers in the metropolitan Sydney region.**

This will not only improve the sporting and recreational attractions of Sydney, but will also increase tourism from visitors travelling to Sydney specifically to dive the wreck. It will also provide educational and scientific research resources for local marine scientists and their research projects.

The undersigned petitioners therefore ask the Legislative Assembly to support this proposal.
